

Label Stocks Product Overview

Tekra carries two lines of pressure sensitive label stock lines to enable the best fit for your application needs. The Tekra PSA line includes standard label products with various face stocks and adhesives, all available at competitive prices. Tekra also distributes the 3M™ Label Stock line, which offers high performance specifications for your most demanding needs.

All label stocks can be broken into four components: face stock, top coat, adhesive, and liner. Each component can affect the performance of the total construction. The following chart shows the various face stocks available, both through the Tekra PSA and 3M™ Label Stock program. The majority are available with either removable or permanent adhesive. In most cases, 3M™ adhesives are very high performance, and are therefore differentiating when function is critical. Also, liners are available for both sheet processing and roll processing, with custom liners also an option.

Custom constructions, including tamper-indicating films are available. Please contact Tekra for further information about these or other varieties of the below products.

Facestock	Application Advantages	Tekra PSA	3M Label Stocks
Flexible Vinyl <ul style="list-style-type: none"> • Non Topcoated White • Clear Yellow • Cold Temp White 	<ul style="list-style-type: none"> • Screen printed labels, emblems and signs • Outdoor durability <ul style="list-style-type: none"> - 6-12 months removable (white only) - 2 years permanent 	<ul style="list-style-type: none"> • Available with both removable (for 6-12 months) and permanent adhesive; removable in white only • Value priced 	<ul style="list-style-type: none"> • 7902 • Available with both removable (for 6-12 months) and permanent adhesive; removable in white only • Permanent adhesive is ideal for low surface energy substrates
Semi-Rigid Vinyl <ul style="list-style-type: none"> • Non Topcoated White 	<ul style="list-style-type: none"> • Screen printed labels, emblems and signs • Outdoor durability 2 years 	<ul style="list-style-type: none"> • Available with permanent adhesive only • Value priced 	Call for product availability
Rigid Vinyls	<ul style="list-style-type: none"> • Designed to produce high quality markups, labels, emblems or signs 	<ul style="list-style-type: none"> • Available with permanent adhesive only • Value priced 	Not available
Cast Vinyls	<ul style="list-style-type: none"> • 8 year films 	<ul style="list-style-type: none"> • Available with permanent adhesive only • Value priced 	Not available

Facestock	Application Advantages	Tekra PSA	3M Label Stocks
Clear Polyester Topcoated	<ul style="list-style-type: none"> • Topcoated for printability • Offers good abrasion and chemical resistance • Suitable for labels, emblems and signs • Outdoor durability up to 2 years 	<ul style="list-style-type: none"> • Permanent adhesive only • Value priced 	<ul style="list-style-type: none"> • 7950 • #300 adhesive series for smooth low surface energy substrates • #350 adhesive for difficult surfaces (powdered, oily and textures surfaces)
White Polyester Topcoated	<ul style="list-style-type: none"> • Topcoated for printability • Gloss white polyester offers abrasion and chemical resistance • Suitable for labels, emblems and signs • Outdoor durability up to 2 years 	<ul style="list-style-type: none"> • Permanent adhesive only • Value priced 	<ul style="list-style-type: none"> • 7982, 7908 • #300 adhesive for smooth low surface energy substrates • #400 adhesive (7982) with excellent low temperature performance and resists yellowing from UV exposure • Matte topcoat resists degradation from abrasion and chemicals • Dot matrix printable and hand writeable
Silver Foil	<ul style="list-style-type: none"> • Designed for screen printing • Appliance labels, dials or control panels • Product nameplates and instruction panels • Outdoor durable for 3 years when properly applied 	<ul style="list-style-type: none"> • Permanent adhesive only • Value priced 	<ul style="list-style-type: none"> • 7941 • #320 adhesive for excellent adhesion to low surface energy plastics • #200 adhesive for high temperature resistance • Ideal for replacement of riveted metal rating plates • Heavy adhesive coat weight is suitable for textured surfaces
Overlaminates	<ul style="list-style-type: none"> • Designed for use in applications requiring protection of printing from abuse and for creating a highly decorative markup 	<ul style="list-style-type: none"> • Permanent adhesive only • Value priced 	Not available

Facestock	Application Advantages	Tekra PSA	3M Label Stocks
Silver Matte Polyester Topcoated	<ul style="list-style-type: none"> • Facestock designed for screen printing • Labels, emblems and signs • Outdoor durable for 2 years when properly applied 	<ul style="list-style-type: none"> • Permanent adhesive only • Value priced 	<ul style="list-style-type: none"> • 7983 • #300 adhesive ideal for smooth low surface energy substrates • Matte topcoat resists abrasion, chemicals and moisture • Face stock dot matrix printable and hand writeable
Brushed Silver Polyester Topcoated	<ul style="list-style-type: none"> • Facestock designed for screen printing • Labels, emblems and signs • Outdoor durable for 1 to 2 years when properly applied 	<ul style="list-style-type: none"> • Permanent adhesive only • Value priced 	Call for availability
Bright Silver Polyester Topcoated	<ul style="list-style-type: none"> • Topcoated for improved ink adhesion • Labels, emblems and signs • Outdoor durable for 1 to 2 years when properly applied 	<ul style="list-style-type: none"> • Permanent adhesive only • Value priced 	<ul style="list-style-type: none"> • 7924 • #300 adhesive ideal for smooth low surface energy substrates • #350 adhesive for most difficult adhesion substrates (powder coatings, low surface energy plastics, slightly oily metals and textured surfaces)
