
Clear, Graphic & Optical Polycarbonate Films

8A13V has a UL94 flammability rating

LEXAN™ 8A13V IS VERY SUITABLE FOR MULTI-LAYER PRINTING...

SABIC Innovative Plastics™

POLYCARBONATE

LEXAN™ 8A13V is a matte/polish transparent polycarbonate film that can be thermoformed, embossed, die-cut, hydroformed, or bent with ease. Along with the many applications listed below this film's low gloss level helps it reduce glare in automobile interiors and office environments. This is the same material as the 8A13; however, 8A13V is UL Rated.

Features:

- UL94 Rated
- High temperature resistance
- Excellent dimensional stability
- Good printability without pre-treatment
- Can be printed using traditional solvent or water-based, UV or infrared drying inks
- Improved gauge control
- 50% reduction in texture variation
- Available in 5 - 20 mil

Applications:

- Overlays
- Floor graphics
- High performance labels
- In-mold decorations
- Can be used over LEDs to diffuse light

LEXAN™ 8A13V can be converted at Tekra and supplied in either roll or sheet form. Request your free samples of LEXAN 6060 today!
