

Films and Coatings Optimized for HP® Indigo Digital Presses

...beyond paper

Printing has changed and so have the materials. Go beyond paper and explore the capabilities of your HP® Indigo Digital Press with films and custom substrates.

With over 100 pre-engineered solutions, Dura-Go®, from Tekra®, is the premier substrate for HP Indigo Digital Presses in both industrial and commercial press environments. Dura-Go represents the finest, most proven, most complete plastic substrate line. Our customers know that our proprietary coating technologies make the difference by providing exceptional print receptiveness, ink anchorage and shelf life.

For nearly 15 years, through an ongoing partnership with HP Indigo, we've engineered the highest quality and most consistent coated products in the market. This is all coupled with our advanced coating capabilities and supported by our experienced chemists and engineers. We're here to help develop solutions for your next big...

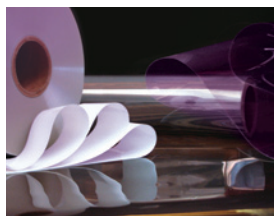

Specialize

Tekra's sheet coater line provides it all; exceptional print receptiveness, ink anchorage, shelf life. The real key to this machine is control. It gives you the choice from literally thousands of made-to-order sheets, specifically for your next application. Dura-Go coated sheets are available in smaller quantities, custom thickness or sizes, various colors, and with specialty adhesives from 3M™. If this is the solution your business demands, the options are endless.

Customize

Our stocked product line is extensive, but sometimes you need something special and unique. Our products can be tailored for a specific need, which we pride ourselves on. Our in-house lab will explore and develop a coating formulation just right for your application. Lead times are shorter than ever, so if there's a product not stocked or you want an entirely new product, we can deliver it, quickly.

Certified

Through worldwide distribution and multiple testing procedures in the United States and Israel, Dura-Go products are certified for HP Indigo presses. Approved for both industrial and commercial presses, these products can be found in the HP Media Solutions Locator at www.hp.com. Here you will find the right media solutions to fit your businesses' printing needs.

Certification testing also takes place at the Rochester Institute of Technology (RIT). Tekra works closely with RIT to qualify products for specific presses. Many of these films have received a rating of three stars, the highest rating given by RIT. Testing and product certification updates can be found at www.rit.edu.

Given the broad range of products and the many press models available, not all products are designed to work on all presses. Contact Tekra for technical assistance, samples, and details of our satisfaction guarantee.

Pre-Engineered Solutions

Polycarbonate (PC)

Polycarbonate films offer superior mechanical, thermal, electrical and optical properties for applications requiring high clarity/low haze

Item #	Product/Description
I01405L	5 mil Velvet/Matte (8B35) PC
I01410L	10 mil Velvet/Matte (8B35) PC
I01210L	10 mil Velvet/Gloss (8A35) PC
I01107L	7 mil Velvet/Fine Matte (8B35F) PC
I01110LT	10 mil Velvet/Fine Matte (8B35F) PC Tipped
I01115L	15 mil Velvet/Fine Matte (8B35F) PC
I01120L*	20 mil Velvet/Fine Matte (8B35F) PC
I01010L	10 mil Polished/Polished (8010) PC with a Mask
I01010LT	10 mil Polished/Polished (8010) PC Tipped
I01015L	15 mil Polished/Polished (8010) PC with a Mask
I01610L	10 mil Polished/Fine Matte (8A13F) PC
I05A10	10 mil FR65 Velvet/Matte PC
I06W10L	10 mil HP12W Weatherable PC

Hardcoats

Hardcoats provide enhanced scratch and chemical resistance. The hardcoated surface can be selectively textured, embossed or printed

Item #	Product/Description
I72107	7 mil Clear PC with a Marnot™ Hardcoat One Side Masked/Other Side
I72110	10 mil Clear PC with a Marnot™ Hardcoat One Side Masked/Other Side
I72410	10 mil PC with a 55% Gloss Unit Marnot™ Hardcoat One Side
I71107	7 mil Clear PET with a Marnot™ Hardcoat One Side Tipped with Backing Paper
I71407	7 mil PET with a 55% Gloss Unit Marnot™ Hardcoat One Side Tipped with Backing Paper
I71707	7 mil ProTek Textured PET with Hardcoat One Side Tipped with Backing Paper
I71807	7 mil ProTek Satin PET with Hardcoat One Side Tipped with Backing Paper
I71907	7 mil ProTek Clear Weatherable PET with Hardcoat One Side Tipped with Backing Paper

Static Cling

Item #	Product/Description
I34106	6 mil White Static Cling Vinyl/90# Liner
I34006	6 mil Clear Static Cling Vinyl/90# Liner
I34108*	8 mil White Static Cling Vinyl/100# Liner
I34008*	8 mil Clear Static Cling Vinyl/100# Liner

Polyester (PET)

Biaxially oriented polyester film offers great durability, tensile strength, heat stability and resistance to water and chemicals

Item #	Product/Description
I11103	3 mil Clear PET C1S Tipped
I11105	5 mil Clear PET C1S Tipped
I11107	7 mil Clear PET C1S Tipped
I12104	4 mil White PET C1S Tipped
I13104	4 mil Semi-Matte PET C1S Tipped
I14104*	4 mil Chrome PET C1S Tipped

Rigid Vinyl (RPVC)

Rigid vinyl offers excellent flex properties, embossing retention, opacity and color consistency

Item #	Product/Description
I22210K	10 mil White Rigid Vinyl Matte/Matte C1S
I22212KJ	12 mil White Rigid Vinyl Matte/Matte C1S
I22215KJ	15 mil White Rigid Vinyl Matte/Matte C1S
I21310	10 mil Clear Scuff Resistant Vinyl
I21310T	10 mil Clear Scuff Resistant Vinyl Tipped with Backing Paper
I21110	10 mil Clear Rigid Vinyl Gloss/Gloss C1S Tipped with Backing Paper
I24210K	10 mil White Rigid Vinyl Matte/Matte C2S
I26210SM	10 mil Silver Metallic Rigid Vinyl Matte/Matte C2S
I26210SG	10 mil Gold Metallic Rigid Vinyl Matte/Matte C2S
I24213KJ	13 mil White Rigid Vinyl Matte/Matte C2S
I24215KJ	15 mil White Rigid Vinyl Matte/Matte C2S
I24218KJ	18 mil White Rigid Vinyl Matte/Matte C2S
I24220KJ*	20 mil White Rigid Vinyl Matte/Matte C2S
I24224KJ*	24 mil White Rigid Vinyl Matte/Matte C2S
I21210	10 mil Clear Rigid Vinyl Matte/Matte C1S Tipped with Backing Paper
I23210	10 mil Clear Rigid Vinyl Matte/Matte C2S
I23215	15 mil Clear Rigid Vinyl Matte/Matte C2S

Synthetics

A white synthetic paper with no wood pulp content, YUPO® combines the appearance and feel of paper with the durability of film

Item #	Product/Description
I90159	5.9 mil YUPOBlue® 78# Text Printable Two Sides
I90189	8.0 mil YUPOBlue® 58# Cover Printable Two Sides
I90199	9.9 mil YUPOBlue® 74# Cover Printable Two Sides
I42510	10 mil SP1000 Digital Teslin - Heat Stabilized
I52007	7 mil Heat Transfer Paper

Vinyl Label Stock

Dura-Go® vinyl, polyester and other face stocks are combined with permanent or removable adhesives to create off-the-shelf label stock solutions

Item #	Product/Description
I80102R	2 mil White Cast Vinyl with Perm Gray Adh/90# Liner
I82304	4 mil White Flex Vinyl with a High Grade Low Tack Removable Acrylic Adh/94# Liner
I82304PL	4 mil White Flex Vinyl with a High Grade Low Tack Removable Adh and 90# Indigo Printable Liner
I823034R	3.4 mil Economy White Flex Vinyl with Low Tack Removable Adh/90# Liner
I81204	4 mil Clear Hard Vinyl with a High Grade Low Tack Removable Acrylic Adh/94# Liner
I81204PL	4 mil Clear Hard Vinyl - High Grade Low Tack Removable Adh and 90# Indigo Printable Liner
I812035R	3.5 mil Economy Clear Flex Vinyl - Low Tack Removable Adh and 90# Liner
I82104	4 mil White Flex Vinyl - High Grade Perm Acrylic Adh and 94# Liner
I82104PL	4 mil White Flex Vinyl - High Grade Perm Removable Adh and 90# Indigo Printable Liner
I82104R	4 mil Economy White Flex Vinyl - Perm Adh and 90# Liner
I82104S	4 mil White Flex Vinyl - Acrylic Perm Adh and 75# Slit Liner
I81104R	4 mil Economy Clear Flex Vinyl - Perm Adh and 90# Liner
I82206W	6 mil White Flex Wall Graphic Vinyl Removable Adh and 90# Liner
I891024PK*	2.4 mil Kaleidoscope Rigid Prismatic Microembossed Vinyl High Grade Perm Acrylic Adh and 94# Liner

Polyester and Polypropylene Label Stock

Item #	Product/Description
I84502	2 mil White PET - P1400 Emulsion Based Perm Adh and 90# Liner
I83502	2 mil Clear PET - P1400 Emulsion Based Perm Adh and 90# Liner
I855102*	2 mil Chrome PET - P1400 Emulsion Based Perm Adh and 90# liner
I85102M*	2 mil Chrome Matte PET - High Grade Perm Acrylic Adh and 90# Liner
I85102V*	2 mil Chrome VOID Security Patterned PET High Grade Perm Acrylic Adh and 90# Liner
I85502B*	2 mil Brushed Silver PET - P1400 Emulsion Based Perm Adh and 90# Liner
I88102R	2.3 mil White Polypropylene - Perm Acrylic Adh and 90# Liner

Polystyrene

Item #	Product/Description
I62012	12 mil White Translucent Polystyrene C2S
I61010	10 mil Double White Opaque (DWO) Polystyrene C2S
I61015	15 mil Double White Opaque (DWO) Polystyrene C2S
I64010	10 mil Near Dead White Opaque (NDW) Polystyrene C2S

Lenticular

Extruded PETG sheet with embossed lenticules allows special effects such as 3D and flip image

Item #	Product/Description
I91018*	Dura-Go Lenstar 18 mil Lenticular (75 Lenticules Per Inch)

Paper Label Stock

Item #	Product/Description
I89160G	60# High Gloss Paper Perm Adh/86# Slit Back Liner
I89160M	60# Matte Litho Paper Perm Adh/86# Slit Back Liner
I89160SG	60# Semi Gloss Paper Perm Adh/80# Slit Back Liner
I8P160UC	60# Uncoated Offset Paper Perm Adh/80# Slit Back Liner
I8P160CR	60# Cream Estate #9 Paper Perm Adh/80# Slit Back Liner
I8T1119	8 pt. C1S Tag Perm Adh/80# Slit Back Liner
I8D160CD	CD/DVD Labels (6-up) Perm Adh/80# Zero Split Liner
