

MARNOT LI Clear Polycarbonate

Advanced

Leaves Iridescence Where It Should Be!

Tekra Corporation Introduces Marnot Advanced™ LI Clear Polycarbonate

ULTRA LOW IRIDESCENCE

- Using refractive index matching technology, iridescence is virtually eliminated
- Vibrant colors such as appliance white, jet blacks, and crisp metallics with no “oily sheen”.

SUPERIOR CHEMICAL RESISTANCE

PASSING EXPOSURE TO THE TOUGHEST TESTS:

- MEK, Acetone, & Standard Industrial Chemicals
- Mustard, Tomato Juice, & Common Household Cleaners
- Sunscreen SPF 70+ Spray & Lotions ¹
- Insect Repellent with 25% DEET ²

WITH TRADITIONAL MARNOT® BENEFITS

- Excellent abrasion resistance
- Outstanding embossing and die cutting
- First and second surface printable
- Solvent and UV Inks
- No additional post process hardcoat curing needed

Marnot Advanced™ LI is available in 7, 10, 15, 20 and 30 mil polycarbonate.

**Advance to being virtually iridescence free.
Choose Marnot Advanced™ LI Clear
Polycarbonate!**
