Tekra Introduces 3M™ Quick Bonding Adhesive 360 Product Family

New Berlin WI - Tekra Corporation, a 3M Preferred Converter, announces the addition of 3M™ Quick Bonding Adhesive 360 Family to their extensive distribution line of 3M products.

3M™ High Performance Quick Stick Acrylic Adhesive 360 is a laminating adhesive used in a thin 2-mil or 5-mil transfer tape or a thin 2-mil or 4-mil double-coated tape, that provides high bond strength to a wide variety of substrates including both high and low energy surfaces such as glass, ABS, and powder coated painted surfaces. It has a higher adhesion while using less tape which results in thinner bond lines. 3M™ High Performance Quick Stick Acrylic Adhesive 360 also has excellent solvent resistance and can be used in high temperature applications up to 350°F (177°C).

According to Julie Levins, Market Development Manager for Tekra, "3M™ High Performance Quick Stick Acrylic Adhesive 360 has superior quick stick attributes which reduces the dwell time needed to reach maximum bond strength. It is also converter friendly, so materials can be processed quicker."

3M™ High Performance Quick Stick Acrylic Adhesive 360 can be used in a wide range of market applications such as electronics, appliances, transportation, and medical devices.

For free test samples via the web [click here](#) or call Tekra at (800) 491-9578. For more information 3M™ Quick Bonding Adhesive 360 or for other Tekra products, visit Tekra at www.tekra.com.

Tekra Corporation has provided plastic film and adhesive solutions to the printing industry for over 30 years and to the digital films industry for over 10 years. Tekra offers proprietary coating technologies, converting services, and, through special supplier relationships, a full line of plastic substrates. Tekra is the North American authorized distributor and exclusive distributor to the North American medical diagnostic market for Dupont Teijin Films™, the authorized distributor for the polycarbonate film products of SABIC Innovative Plastics in the United States and Canada, and an Authorized Converter and Distributor for 3M adhesives.
