LEXAN™ DL8B25 is low gloss light diffusion translucent polycarbonate film, which has unique light diffusing properties designed for indoor LED and conventional lighting fixtures. It features a unique combination of high light diffusion and high light transmission through a combination of optimized surface texture and advanced diffuser technology.

Features:

- Good printability without pre-treatment
- Excellent impact resistance
- Uniform illumination
- Advanced diffuser technology
- Mar resistant
- Embossable
- Diecuttable

Applications:

- Light-emitting devices
- Menu boards
- In-mould decoration
- Electric vehicle interiors

LEXAN™ DL8B25 can be converted at Tekra and supplied in either roll or sheet form. Call us today to receive a quote or free samples.
