## PRODUCT DATA

### Dura-Go Velvet / Matte Polycarbonate

Dura-Go™ substrates are HP Indigo-licensed and were jointly developed by Hanita Coatings, Tekra Corporation and HP Indigo to create the premier product line of film substrates for HP Indigo digital presses.

Our proprietary primer coatings provide a number of benefits, including:

- Reliable, superior ink adhesion

- High definition of colors

- Long shelf life, guaranteed to print for one year after purchase when stored at less than 72F and less than 50% relative humidity.

The Dura-Go coating is highly resistant to weathering/degradation:

		Units	Test Conditions
Weatherability	2	Months	Outdoor
	24	Months	Indoor
Dish Washer	pass	N/A	1.5 hours, top cycle
Water and	200	Hours	65% RH at 80F
Chemical Resistance	200	Hours	Distilled Water at 90F
	2	Hours	Water + 2% detergent at 150F
	24	Hours	Ethanol at 75F

Dura-Go Velvet / Matte Polycarbonate is a one side velvet, one side matte transparent polycarbonate film coated on one side that is available in a 5, 10, and 15 mil thickness. It offers high temperature resistance and excellent dimensional stability. It offers ease of processing for embossing, die cutting, and bending. It is used in applications such as name plates, face plates, overlays, and high performance graphics.
