

FEATURED PRODUCT

Simplify your label portfolio with 3M™ Versatile Print Label Material

3M™ Versatile Print Label Material provides print receptivity across a variety of print methods including:

- Water-Based Flexographic
- UV Flexographic
- UV Digital
- Thermal Transfer
- Screen Printing
- Dry Toner

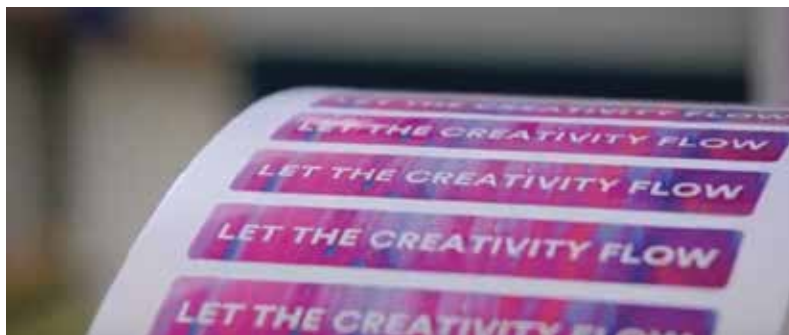

You no longer need to buy separate print media for different printing methods. Streamline your purchases and help improve workflow on your production floor.

Available materials include:

3M™ Versatile Print Label Material	Facestock	Adhesive type	Gauge	Liner Type
7868V	2 mil White Gloss PET	350	1.1 mil	55# Densified Kraft
