## 3M™ 100MP High Performance Acrylic Adhesive

As the only 3M Master Converter, Tekra offers tapes from the 3M™ 100MP High Performance Acrylic Adhesive family. These adhesives deliver in challenging environments like extreme temperatures and applications seeing chemicals or solvents. These products offer extreme durability in conditions like wind, rain, sand, abrasion, heat, cold, and more. 3M™ 100MP was designed for use with medium and high surface energy materials and has exceptional shear strength and high peel strength. These qualities make 3M™ 100MP High Performance Acrylic Adhesive utilized in highly regulated industries.

When needing tape for a demanding adhesive solution, turn to 3M™ 100MP High Performance Acrylic Adhesives!

3M 100MP Tapes Include:

[3M™ VHB™ Adhesive Transfer Tape F9460PC](#): Transparent, double-sided, 2.0 mil VHB™ transfer tape

[3M™ VHB™ Adhesive Transfer Tape F9469PC](#): Transparent, double-sided, 5.0 mil VHB™ transfer tape

[3M™ VHB™ Adhesive Transfer Tape F9473PC](#): Transparent, double-sided, 10 mil VHB™ transfer tape

Through our long association with 3M, Tekra has developed extensive application knowledge as well as sophisticated inventory and logistics systems that enable fast delivery of a wide range of materials. Contact a Tekra representative to learn more.
