TEKRA ANNOUNCES NEW DURA-GO® BROCHURE FOR HP INDIGO PRESSES

New Berlin WI - Tekra Corporation is proud to announce a new Dura-Go brochure featuring the complete line of digital substrates for HP Indigo Digital Presses.

This brochure includes the most current stock list of Dura-Go products available in both sheets and rolls. Many of these stocked products have been certified by the Rochester Institute of Technology (RIT) and received their highest rating of three stars. Among the new additions that have been made to the Dura-Go stock list, the most notable includes stocked products such as the metallic gold (I26210GM) and metallic silver (I26210SM) rigid vinyl (PVC).

In addition, this brochure also highlights our custom capabilities, such as our in-house lab and sheet coater, for products that may not be on our stock list, but can potentially still be supplied. Our in-house lab develops coating formulations for unique applications, while our sheet coater line accommodates options like smaller quantities and special thicknesses.

As the digital printing environment changes, so does Tekra's product offering. Don't miss out on the new products available at Tekra. To view this brochure, [click here](#). For more information on the Dura-Go product line or to request free samples, please contact Tekra Corporation at (800) 491-9578 or visit our website at www.tekra.com.

Tekra Corporation has provided plastic film and adhesive solutions to the printing industry for over 30 years and to the digital films industry for over 10 years. Tekra offers proprietary coating technologies, converting services, and, through special supplier relationships, a full line of plastic substrates. Tekra is the North American authorized distributor and exclusive distributor to the North American medical diagnostic market for Dupont Teijin Films™, the authorized distributor for the polycarbonate film products of SABIC Innovative Plastics in the United States and Canada, and an Authorized Converter and Distributor for 3M adhesives.
