**February 2022**

### **TEKRA TO EXHIBIT AT DSCOOP EDGE IN DENVER.**

Tekra, LLC will be showcasing at the upcoming Dscoop Edge Conference in Denver, CO March 6th-8th. This year, Dscoop is focusing on the fact that everyone gets to meet in person. With two years of online meetings, bringing people together to reunite, network and share is vital. "Catching up with everyone in person after years of phone calls and online events is something I think everyone is looking forward to. In-person networking and connection is so important to the flow of ideas and building relationships that keep the industry moving forward," states Rebecca Fuhrman, Market Development Manager of Digital Films at Tekra. This year, Dscoop will be exploring some of HP's latest innovations along with hosting keynote speakers such as David Burkas, Jesse Cole, Rorke Denver, and Verne Harnish.

Tekra will be exhibiting their line of HP print-ready films for both Indigo and Inkjet. "We want to highlight the advantages we can offer when it comes to printing plastics. Our wide variety and years of experience have given us a knowledge base that can help customers solve problems and offer solutions," continues Fuhrman.

You can visit Tekra during the showcase hours, Sunday-Tuesday, at Booth #500. They will display their full line of films that will include their Dura-Go® and JetView™ and be available to discuss your media needs and offer a free printed sample. In the meantime, you can learn more about them at their website: [www.Tekra.com](http://www.Tekra.com) and get more information on the Dscoop Edge Conference by visiting <https://www.dscoop.com/event/Edge-Rockies>.

*Tekra, LLC has provided plastic film and adhesive solutions to the printing industry for over 50 years and to the digital films industry for over 20 years. Tekra offers proprietary coating technologies, converting services, and, through special supplier relationships, a full line of plastic substrates. Tekra is the North American authorized distributor and exclusive distributor to the North American medical diagnostic market for DuPont Teijin Films™, the authorized distributor for the polycarbonate film products of SABIC Innovative Plastics in the United States and Canada, and a Master Converter for 3M™ Adhesives.*
