

Get A Grip...

with 3M™ Scotchcal™ High Tack Graphic Film from Tekra

CHALLENGING SURFACES NEED 3M™ SCOTCHCAL™ HIGH TACK GRAPHIC FILM IJ39-20...

3M™ Scotchcal™ High Tack Graphic Film IJ39-20 is the perfect solution for applications requiring high holding power on challenging surfaces. The film provides a permanent bond to surfaces like low-VOC paints, powder-coated paints, and low-surface energy plastics like polyethylene and polypropylene. Other characteristics of the film include:

- Designed for solvent, UV and Latex-based inkjet printing in addition to screen-printing
- Five year expected performance life
- Can be used for both indoor and outdoor applications
- Designed for either flat or simple curved applications
- Matte vinyl
- Valued priced
