JetView™ Latex

Low Tack Window Film

MAKE A STATEMENT 24/7 WITH TEKRA'S NEW JETVIEW™ LATEX LOW TACK WINDOW FILM THAT'S VIEWABLE BOTH DAY AND NIGHT...

DIGITAL

Front-lit, backlit, or sunlit, this material stands out to help you make a statement. Reverse print to install on the inside of a window to protect the graphic and be viewable both indoors and out.

Tekra's new JetView™ Latex Low Tack Window Film is optimized to work with Latex and UV inkjet technology for superior performance and ink anchorage. This polyester film is dimensionally stable, offers quick dry times, lay-flat construction and can withstand lighting heat without risk of warping. Combine these features with easy, residue-free removal and this film is your new go-to for your promotional signage.

Features:

- Excellent UV and Latex ink adhesion
- Brilliant print quality across the color spectrum
- Extra 'pop' when paired with a light source
- Can be backlit or front-lit
- Removable adhesive
- One-step window graphic

Specifications:

- 6 mils thick
- Polyester
- Semi-matte
- Removable adhesive
- Roll sizes available: 36" x 20' and 60" x 100'

Applications:

- Retail stores, office buildings, restaurants, department stores, commercial environments
