LEXAN™ 8020 is a polish/polish colored polycarbonate. This film offers superb custom color capabilities and with recent technological improvements the color variation has been reduced by about 50%. This film also offers improved gauge control.

### Features:

- High gloss surface finish
- High heat resistance
- Superior dimensional stability
- Added UV stability
- Derived from one of the world's toughest polymers
- Available in 10 - 30 mil

### Applications:

- In-mold decorations
- Automotive interiors
- Appliances
- Consumer electronics

LEXAN™ 8020 can be converted at Tekra and supplied in either roll or sheet form. Call us today to receive a quote or free samples.
