LEXAN™ 8A23 is a one side matte, one side polished custom color polycarbonate film. The matte texture offers mar resistance and also aids in the diffusion of light when placed over LEDs.

### Features:

- High temperature resistance
- Excellent dimensional stability
- Good printability without pre-treatment
- Low gloss
- Can be screen printed using solvent, water based, UV or infrared inks
- Thermoformable
- Diecuttable

### Applications:

- Overlays
- Floor graphics
- High performance labels
- In-mold decorations

LEXAN™ 8A23 can be converted at Tekra and supplied in either roll or sheet form. Call us today to receive a quote for free samples.
