LEXAN™ 8B25 is a one side velvet, one side matte custom color polycarbonate film. Much like the other LEXAN™ polycarbonate films this material's matte side offers mar resistance which aids in ease of converting, handling, and processing of the film.

Features:

- Good printability without pre-treatment
- High temperature resistance
- Excellent dimensional stability
- Thermoformable
- Mar resistant
- Embossable
- Diecuttable

Applications:

- Overlays
- Floor graphics
- High performance labels
- In-mold decorations

LEXAN™ 8B25 can be converted at Tekra and supplied in either roll or sheet form. Call us today to receive a quote or free samples.
