LEXAN™ 8B36 is a one side suede, one side matte transparent polycarbonate film. The heavy suede texture of the film offers additional mar resistance. This feature also adds an element of light diffusion that allows this material to be used over LED lights.

Features:

- High temperature resistance
- Excellent dimensional stability
- Good printability without pre-treatment
- Mar resistant

Applications:

- Multi-layer printing
- Over light emitting devices
- Automobile interiors
- Automobile interiors
- Offices

LEXAN™ 8B36 can be converted at Tekra and supplied in either roll or sheet form. Call us today to receive a quote or free samples.
