LEXAN™ FR25A is an opaque flame retardant polycarbonate one side velvet, one side polish. FR25A is easily able to be die cut, folded and bent. This material is used in applications that encounter higher temperatures such as the ones listed below.

### Features:

- Good dimensional stability at high temperatures
- UL 94 V-0 flame rating
- Excellent mechanical properties
- Standard colors include: black, white, light grey, and dark grey
- Thermoformable
- Embossable
- Hydroformable

### Applications:

- Electronics
- Printed circuit board insulation
- Transportation

LEXAN™ FR25A can be converted at Tekra and supplied in either roll or sheet form. Call us today to receive a quote or free samples.
