LEXAN™ FR65 is a clear velvet/matte flame retardant polycarbonate. FR65 is easily able to be die cut, folded and bent. This material is used in applications that encounter higher temperatures such as the ones listed below.

Features:

- Good dimensional stability at high temperatures
- UL 94 V-0 flame rating
- Excellent mechanical properties
- Hyrdoformable
- Thermoformable
- Embossable

Applications:

- Printed circuit board insulation
- Electronics
- Transporation

LEXAN™ FR65 can be converted at Tekra and supplied in either roll or sheet form. Call us today to receive a quote or free samples.
