LEXAN™ OQ92S is highly durable, easily printed film that may create new opportunities in graphic design which may include benefits such as: flexible UV processing, multiple topside selective texturing, durability of coating and texture adhesion when exposed to strong household chemicals such as Wisk or Formula 409.

Features:

- High-performance coated film
- Good chemical resistance
- Good abrasion resistance
- Unique processing characteristics
- Improved surface quality over HP92S

Applications:

- LED/LCD display windows

LEXAN™ OQ92S can be converted at Tekra and supplied in either roll or sheet form. Call us today to receive a quote or free samples.
