

# Ovenable Polyester Packaging Films

Mylar® OWF for heat-sealable, food packaging applications

MYLAR® OWF IS DESIGNED AS AN OVERWRAP FILM  
SUITABLE FOR FOOD CONTACT

Mylar® OWF is a co-extruded, one-side amorphous, ovenable, heat-sealable polyester film that is designed for overwrap film in food packaging applications. Mylar® OWF heat seals to APET, CPET, PETG, PET, PVC, and various tray types with a lock down, permanent seal. It's ideal for lockdown seals to APET.
