

TK8000 PROTECTIVE MASKING

TECHNICAL DATA

TK8000 is a 2 mil high clarity low density polyethylene (LDPE) coated on one side with a pressure sensitive adhesive that has virtually no adhesive build after extended periods. **TK8000** is excellent for applications on polyester films.

Nominal Thickness	.002"	PSTC 33
Adhesion - Stainless Steel	1 oz/Inch	PSTC 1
Adhesion - Polyester	.6 oz/Inch	PSTC 1
Tensile Strength	3300 PSI MD	ASTM D-882
Elongation	300% MD	ASTM D-882

Application Information

TK8000 will adhere immediately and firmly to clean, dry surfaces. **TK8000** requires no moisture or heat during application.

Shelf Life= 1.5 years
